Innovative Electronics and Lighting Solutions for Commercial and Off-Highway Vehicles

Addressing Megatrends with Advanced Technology

Abstract: In an era driven by **rapid technological evolution** and megatrends like automation, electrification, sustainability, and connectivity, the **commercial and off-highway vehicle industries** face transformative challenges and opportunities. This presentation explores cutting-edge electronics and lighting solutions tailored to enhance comfort, safety, and efficiency in demanding environments.

Students will get first-hand information how they can contribute on this journey of technological changes.

Date: 03.04.2025

Location: Campus Derendorf, Gebäude 5, Raum 1.001

Company profile: FORVIA HELLA is a listed, internationally positioned automotive supplier. As a company of the FORVIA Group, FORVIA HELLA stands for high-performance lighting technology and vehicle electronics and, with the Lifecycle Solutions business group, also covers a broad service and product portfolio for the spare parts and workshop business as well as for manufacturers of special vehicles. With currently around 37,500 employees at over 125 locations, the Company is active worldwide and generated adjusted sales of €8.1 billion in the fiscal year 2023.

Speaker: Fabian Utermöhlen received the Diploma degree in electrical engineering from Technische Universität Dresden, Germany, in 2011, and the Ph.D. degree in electrical engineering from the University of Stuttgart, Germany, in 2015. After various positions at Robert Bosch GmbH, he joined HELLA GmbH & Co. KGaA, Lippstadt, Germany, in 2018. In his current role, Dr. Utermöhlen is Vice President for Program Management and R&D in the commercial and off-highway division.
