

Working student - Knowledge Management (m/f/d)

Outokumpu employs more than 9,000 people in over 30 countries worldwide and is one of the leading producers of corrosion-, acid- and heat-resistant stainless steel flat products. They are the material basis for many areas of application: from architecture to consumer goods to industrial applications. Customers in the entire stainless steel sector in Europe, Middle East and Africa are served with a wide range of products, modern manufacturing technologies and a high quality standard of the Outokumpu plants in Germany, Finland, Great Britain and Sweden.

Are you looking for a challenging job alongside your studies, where you can combine the theoretical content of your studies with practice? Join our dynamic community and discover exciting opportunities for students.

For Outokumpu Nirosta GmbH in Krefeld we are currently looking for a **Working student “Knowledge Management”** (m/f/d).

Your tasks

- Development of the knowledge management process in manufacturing
- Digitalization and optimization of existing processes
- Support of production experts in documentation and process analysis
- Employee interviews

Who are you?

We believe that you're a cooperative and socially adept individual with a few years of experience in your field of study. You lead yourself with integrity and expertise, and as a result, can build trust with people of varying functions and personalities. Clear, prestige-less, and respectful communication is important to you and so is your growth as a person and as an engineer.

Your profile

- Ongoing studies in business administration, industrial engineering or business informatics
- You should be available immediately, for an estimated 6 months period and for around 15 hours per week
- High IT-affinity & very good user knowledge in MS Office, Microsoft Power Platform (PowerBi etc.) and digital databases
- Programming skills would be an advantage
- Language skills: good command of spoken and written German and English
- Personal skills: analytical thinking, high degree of initiative, independent and organized way of working
- Openness & the ability to work in a team
- Resilience

We offer

- To partake in shaping the future, here and now, as a part of our global team of motivated and respectful individuals who are proud of the important work that we do
- Develop your skills in a high-level workforce drawn by continuous improvement and professional satisfaction
- A company that has confidence in your capacity to take responsibility, be proactive, and independent
- Educational programs ensuring the expansion of your skills and knowledge
- Participation in sustainable work that will impact generations to come
- Vacation in advance, flexible work hours and other benefits
- Option to write your thesis within the company

Interested?

If this role has awakened your interest, please submit your application and CV in English **before the 31.01.2022** via our online tool: www.outokumpu.com/careers indicating your earliest possible start date.

Your contact person for questions about our job offer is Vanessa Schulze, HR Business Partner Germany, Tel.: +49 2151 83 3281; Email: vanessa.schulze@outokumpu.com.

Stainless steel has changed the world. And it will continue to make our lives safer, more mobile and more comfortable in the future. You can make an important contribution to this. Enter the world of stainless steel!
